Dave:

Attached are the Lower CAD Cell report files in Word format. I am assuming Elaine is not involved at all in the review of this report.....I have not cc'd her on any of the correspondence.

Following the review of this LHCC report, do you want me to set up a conf. call to discuss which DMU Unit the sediment going into the Upper Harbor CAD Cell will come from? Given the long time it took for the LHCC report, it would be a good idea to get this effort on the ERDC "to do" list.

Paul:

Can I get a copy of this report in Word format, so comments can be made in Track-Changes?

Bob,

Here is the draft report. Let's talk about the appendices on Monday if you will be available.
